- Wall brake system for alignment on uneven walls
- One-touch lock and release mechanism

Model	Display Size	VESA	Depth	Max Load
MPVW-UNIPPV2U	37" - 75"+	Up to 1000x400	4.10" Min - 7.05" Max	150 lb

### INSTALLS IN MINUTES

#### Direct Unistrut Installation

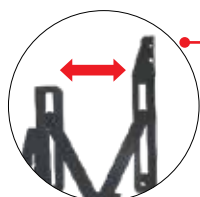

Easily installs to 1-5/8" unistrut in minutes, just attach to the display and mount to unistrut channel.

### Depth Adjustment

#### 3" Depth Micro-Adjustment

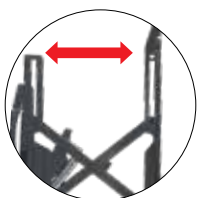

In addition to the 4-corner plumb adds an independent micro-adjustment for regulating depth of the display relative to the wall.

### SERVICE MODE

#### 11.25" Extension From Wall

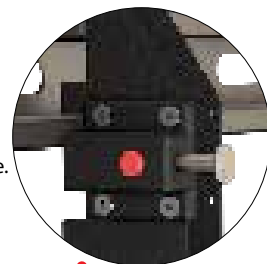

Gives installer 11.25" of clearance for wiring and service.

### ONE TOUCH LOCK SYSTEM

#### Secure and Release with One Touch

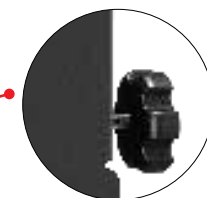

Quick release-and-engage mechanisms lock the mount with one touch and keep the display secure.

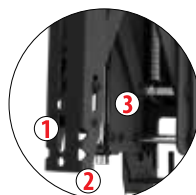

### WALL BRAKE ALIGNMENT

#### No Tools Needed

Two hand-adjustable wall brakes allow for quick alignment on uneven walls.

- 1) Depth 3"
- 2) Plumb +/-0.5"
- 3) Leveling +/-0.5"

### ADJUSTMENTS IN ONE LOCATION

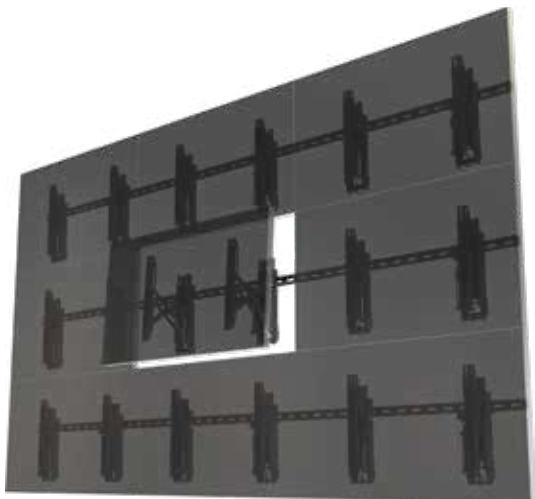

#### 6 Conveniently Located Adjustment Points

All 6 micro-adjustment points are located on the bottom of the mount for easy access. 6mm standard hex driver is included.

## For Video Wall Displays up to 1000 x 400 VESA

Mustang AV  
www.mustangav.com

Designed for ease of use and installation, the unistrut video wall mount makes installing video wall systems quick and simple. Mounting directly to unistrut channels in minutes, even large configurations can be quickly assembled by a single installer. Alignment is made easy with 8 different adjustment points, and no tools are required for wall brake adjustments, ideal in situations involving uneven walls. One touch lock-and-key mechanism keeps the display secure, while the push-in/pop-out technology ensures fast display servicing.
