

## Ultra Slim 43" Back to Back Indoor Kiosk

Designed for your digital signage application

### MPKID-BB43 Kiosk

The MPKID-BB43 indoor double-sided portrait kiosk includes the ultra slim AUO PD43A Dual Sided Display. Designed to house most commercial media players and Bluetooth routers and is perfect for retail, healthcare, education, convenience stores and a myriad of other applications.

This kiosk is part of Mustang AV's indoor and outdoor portrait kiosk lineup and is perfect for partners who want to deliver impactful digital signage solutions.

Constructed using 14 GA. high impact steel and a shatter resistant polycarbonate display that ensures longevity and years of use. This kiosk can be painted any color and customized to include printed decals and kiosk wraps. (additional charges may apply)
