MPJ-3 Projector Mount

This universal projector mount is simply the easiest to install and also, the most precisely adjustable, without the use of tools. Heavy duty design makes this unit ideal for larger projectors and those with a lens that is off-center.

- Load: 70lb
- Pitch: +/-15°
- Roll: +/-8°
- Diameter: 351.5mm*
- Rotation: 360°
- Micro Adjust: Yes

Installation
Installs to any structure with 1.5" NTP thread. Simply rotate the large easy to grip knobs to make all the necessary adjustments during installation. Crimson lead screw adjustment mechanism is unique and precise.

Universal
Universal Design fits hole patterns up to 351.5MM diameter. Additional legs expand the range to cover any large mounting hole pattern.

Quick Release
Quick release allows easy removal for bulb replacement without losing picture adjustments.
